

SUPERIOR PROTECTION. NOW AT MST.

When it comes to seamless pressure pipe, we meet every demanding operational requirement and precise specification. Now, we offer the superior protection of Blue Diamond® coating. Blue Diamond® has always set the standard for coated pressure pipe. Today, it's available exclusively from MST for immediate delivery. If you require A106 seamless pressure pipe, you need the exceptional protection of Blue Diamond®. This product meets ASTM/ASME A/SA 106 requirements and offers superior surface protection.

we offer

- Quick turnaround
- Expedited deliveries
- Custom lengths
- 100% melted and manufactured in the USA

Why is Blue Diamond® the best choice?

- Fully compatible with nipple manufacturers' cutting oils
- Coating on every length of pipe UV cured to deter rust
- Each pipe is stenciled in bright yellow
- Pipe ends are machined square, then lightly chamfered to de-burr the edges
