SetFast™

No Cut Closet Bolts

The SetFast bolt is the first telescopic closet bolt that requires "No Cutting" or "Break Off". SetFast bolts install like a standard closet bolt but adjust like no other. Just tighten the nut and watch the bolt get shorter with every turn.

SetFast bolts are a real time saver that simplifies both toilet installation and removal. Sold in pairs, 2 bolts per pack.

Features:

- Professional grade 5/16" solid brass with stainless steel washers
- No Cutting or Break-off
- No Spinning
- No Tipping
- Self Adjusting Length 1347502
- Adjustable Length 1347504. Great for installations where the closet flange is below the finished floor.

Standard Length (1347502)

Self Adjusting Size 5/16" x 2-1/4" down to 1-1/2"

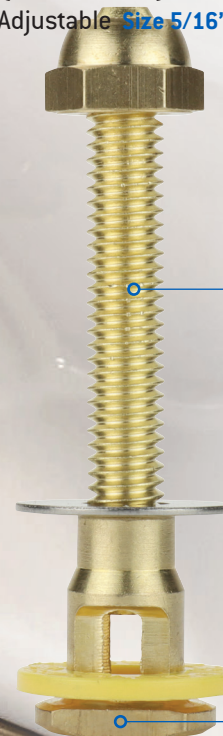

Turning the brass nut forces the bolt to turn once it hits the unique white dot "thread locker". This action is what makes the bolt a self-adjusting tool.

"No Tip" Washer prevents bolt from tipping when setting toilet over closet bolt

XT Length (1347504)

Adjustable Size 5/16" x 3"

Professional grade 5/16" solid brass

Flat sides on the bolt ridge and body preventing the bolt from spinning

PRODUCT	DESCRIPTION	MODEL	UNITS/CASE
