FLAT Tech reserves the right to amend these charges in instances where powder-coats, paint colors or finishes are of a non-standard or non-stock nature or are subject to minimum volumes from the powder coat/paint manufacturers. Upon written confirmation between FLAT and the client of the specification and production costs, the custom colored bases will be produced and made available for shipping within 8 weeks.

Where the client requires over 300 custom colored bases, production timescales may vary and subject to stock availability. Such orders may be fulfilled by our facility in China. In this case, production may take 6-8 weeks, plus shipping time (circa 8 weeks).

Costs will vary subject to production and shipping costs and will be quoted on a case by case basis.
